Dillon Guillory

Full Stack Software Developer

Houston, TX | 281-900-1638 | dillonguillory@gmail.com | linkedin.com/in/dillon-guillory | dillguill.github.io

SUMMARY

Full-stack developer with a biology background and production experience building AI pipelines, web applications, and ecommerce platforms. Hands-on with Python, Django, React, WordPress, and Docker across real deployed projects.

SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frameworks: Django, React, Tailwind CSS, Bootstrap, Next.js

AI/ML: Generative AI, LLM API integration, Retrieval-Augmented Generation (RAG), vector search, prompt engineering, AI Agents (agentic workflows), Model Context Protocol (MCP), local model inference (Ollama, llama.cpp), Computer Vision, Image Generation, speech-to-text, text-to-speech, n8n

Infrastructure: Docker, Git/GitHub, GitHub Actions (CI/CD), Cloudflare, Vercel

Operating Systems / Shell: Linux (Ubuntu), macOS, Bash, Zsh

Networking: Reverse Proxy, DNS, SSL/TLS, VPN (WireGuard)

Tools: WordPress, CMS, REST APIs, CRM systems, Jira, Confluence

Methodologies: Agile Development

WORK EXPERIENCE

Full-Stack Developer, AI Focus

August 2023 — Present

Self Employed · Freelance · Houston, TX

- Build and ship full-stack applications end-to-end, from system architecture and database design through polished, production-ready frontends, using Python, JavaScript, Django, React, and PostgreSQL
- Design and deploy AI-powered features and infrastructure, including LLM integration, knowledge management systems, and voice interfaces, bridging modern AI capabilities with practical, real-world product needs
- Delivered a custom CRM platform and generative AI pipelines for marketing image generation and captioning for Quest Real Estate
- Own technical decision-making across the stack: architecture, tooling choices, and trade-offs between speed, scalability, and cost
- Translate ambiguous business requirements into working systems, partnering directly with clients

Co-Founder & Developer

August 2021 — August 2023

DG Athlete · Houston, TX

- Planned, built, and launched the full site on WordPress; responsible for all frontend work including layout, styling, debugging, and publishing across the storefront and blog
- Managed the full site development lifecycle: staging environments, publishing workflows, and iterative changes to pages and site structure
- Maintained site security, uptime, and performance across multiple hosting environments before settling on WP Engine

- Configured and managed WooCommerce for ecommerce: product pages, checkout flows, customer accounts, and order data

EDUCATION

B.S. Biology

Xavier University of Louisiana — New Orleans, LA · xula.edu

- Minor in Chemistry
- Focus in Mandarin Chinese

CERTIFICATIONS AND TRAINING

- IBM Full Stack Software Developer Professional Certificate — IBM
- AWS Cloud Practitioner Essentials — AWS
- The Ultimate Fullstack Web Development Bootcamp — Udemy
