

Dillon Guillory

Full-Stack Developer

📍 Houston, TX 🌐 <https://dillguill.github.io> 

Full-stack developer with a project-driven background delivering AI-powered tools, web applications, and production-grade integrations for real clients and independent projects. Experience spans LLM pipelines, RAG architecture, generative AI, ecommerce, and cloud infrastructure.

Languages

JavaScript, Python, HTML, CSS

AI

Agentic Pipelines, RAG, Generative AI, Voice AI, LLM Integration

Cloud / DevOps

AWS, Docker, Cloudflare, Tailscale, nginx, Linux

Frameworks

React, Node.js, Django, Tailwind CSS, Bootstrap

AI Tools

Ollama, Open WebUI, ComfyUI, llama.cpp

Databases & Tools

PostgreSQL, MySQL, Git, REST APIs, WordPress

Quest Real Estate

August 2023 - June 2025

Developer

- Engineered an LLM-powered internal Q&A tool using Python, llama.cpp, and a custom RAG pipeline — enabling staff to query business documentation in natural language and cutting retrieval from minutes to seconds.
- Built generative AI pipelines for marketing automation, producing property descriptions, SEO content, and client-facing materials using locally-hosted open-source models.
- Developed REST API integrations to connect internal business tools and improve data flow across systems.
- Implemented on-premise AI deployment strategy balancing privacy, cost, and performance.

DG Athlete

August 2021 - July 2023

Founder & Lead Developer

- Founded and built a fitness content and ecommerce platform from scratch, scaling to 500–1,000 daily active users and 20,000+ monthly pageviews with 99% uptime.
- Engineered full-stack ecommerce with Stripe payment processing, managing 1,000+ customer accounts via WordPress, PHP, JavaScript, and MySQL.
- Drove organic growth through technical SEO, achieving top-10 Google rankings for 15% of published content.
- Owned all infrastructure — Cloudflare DNS/CDN, WP Engine hosting, performance tuning, and uptime monitoring.
